

Goodsearch.com Instructions

For a painless way to contribute more to Christ the Lord Church, sign up for

www.goodsearch.com

This is a charity search engine that gives a tiny amount for web searches of commercial sites and more if you use it when you go to amazon.com or other sites to make online purchases...and all at no cost to you. Christ the Lord Church, Pinole is signed up as a charity, so you can find it when it asks you to choose your charity. If you sign up for goodsearch, you can make it your default search engine, which makes it easier to use. It uses yahoo to do the search, and I've found it to be an excellent search engine. It works great.

If you prefer not to make goodsearch your default browser, you can still use it by typing www.goodsearch.com in every time you're going to make an internet search or (especially) an internet purchase.
